				Read-Only Assessor Data Manager

1. Be sure that all names and emails are **SPELLED CORRECTLY**. User account credentials are created based on these 3 fields and in-correct names on the form will cause login issues.
2. Access to Organization/Site(s): Enter the specific base/installation within the previously listed organization that access is being requested. (Langley AFB, Savannah River Site, All USAFE, etc.)

Role (Read-Only, Assessor or Data Manager)
Read-Only Assessor Data Manager

1. **READ ONLY:** Generally the role for personnel with no training/waiting for training.
2. **ASSESSOR:** Generally the role for personnel who will be conducting inventories, assessments, etc.
3. **DATA MANAGER:** Generally the role for personnel who analyze data entered and run reports, work plans, scenarios, etc.

***REMEMBER**, all personnel who have not received/waiting for training will have a temporary “READ ONLY” limitation on their account. This can be removed once necessary training has been completed.
