

RAILER Lesson 09– RAILER Maintenance and Repair Planning

Objectives

- Understand how a work plan gets generated based off RAILER Data.
- Understand the results of a work plan.

Hands-On Exercise

The user will use RAILER to:

1. Configure work generation parameters, including costs, policies, inflation books, priorities, and funding.
2. Develop the scope for a work plan
3. Generate and view work items
4. Edit generated work items
5. Export work plan results to Microsoft Excel.
